

Rosemont Pet Hospital

Introducing – Pet Portals

Use your pet's personal portal to view your pet's record any time, from any place with Internet access. It's updated each business day, so the information displayed on your pet is always current.

Each time you sign into your Pet Portal from our website you can:

- View your pet's vaccinations
- Request medication refills online
- Update your account information
- Request appointments and boarding reservations
- Create e-mail reminders to help keep track of your pet's medication schedules
- Review previous health services and medication history
- Use Pet Mail for non-urgent communication with your veterinarian
- Shop online and much more.

In addition to displaying your pet's health information, Pet Portals provides health tips and information tailored to your pet's health issues and life stage.

To establish a Pet Portal for each of your pets just log onto:
